PROFESSIONAL SUMMARY

AI and AWS Cloud Engineer *with* ***4+ years of experience*** *building* ***web, desktop and mobile applications****. I specialize in adding* ***AI capabilities*** *to products, including* ***chatbots, RAG systems, automation workflows*** *and* ***intelligent serverless backends*** *built on* ***AWS Bedrock, Lambda*** *and modern AI APIs. I take* ***full ownership, from architecture to deployment****.*

WORK EXPERIENCE

Upwork 2025 – Present

AI Engineer · Agentic Systems & AWS Cloud · Full-Stack Developer

- Earned **Rising Talent** status with **100% Job Success** and **5-star reviews** across hourly and fixed-price contracts
- Built a **VPN SaaS platform** (OurVpns.com) from scratch with **React, Supabase** and multiple third-party APIs, taking the product to the point of **securing funding**
- Delivered **MyFaithy**, an **AI-powered companion app** with LLM features: voice recording with **speech-to-text** and **automatic summaries** of key content

M Innovation Jun 2024 – Aug 2024

Full-Stack Developer Intern

- Built an **internal task-management tool** from scratch in **React** with **full CRUD** across frontend, API and database

NEWDOOR Real Estate Agency Jun 2023 – Jul 2023

Full-Stack Developer Intern

- Built the agency's **full-stack website** with **Laravel (PHP)** and **React**, from database and backend to responsive UI

PROJECTS

AI Customer Support Agent (RAG)

- **RAG chatbot** over PDFs with **Pinecone vector search**, source citations and a **relevance gate** that blocks hallucinated answers

Serverless Bedrock Knowledge-Base Chatbot

- **Fully serverless RAG assistant** answering from company documents through an **Amazon Bedrock** knowledge base, served via a **React** chat widget

NexMart E-Commerce Platform

- Full-stack store with **Stripe payments** on **auto-scaling AWS infrastructure** behind a load balancer and CDN, with **sub-1s page loads**

WordPress Auto-Scaling Infrastructure on AWS

- Production-grade deployment absorbing **10x traffic spikes**, with **40% lower cost** and **5x faster performance** than a single-server setup

EDUCATION

Ibn Zohr University, Agadir

Master's in Software Engineering 2027

Licence in Software Engineering 2025

Higher School of Technology, Meknes 2024

DUT in Web & Mobile Development

CORE SKILLS

- MCP
- Multi-Agent Orchestration
- Subagents
- RAG
- Vector DBs
- Amazon Bedrock
- n8n
- AWS Lambda
- API Gateway
- S3
- RDS
- JavaScript
- React
- Big Data
- Full-stack Development
- CI/CD
- AWS Cloud
- LLM Chatbots

LANGUAGES

Arabic (Native), French (Advanced), English (Fluent)
